

# The Daily Astorian.

ASTORIA, OREGON:  
SUNDAY, APRIL 10, 1897.  
Lent is over.

Easter Sunday.  
The usual scarcity of fish is reported.

The Pacific Journal quotes salmon at \$2.50 at Ilwaco.

Yesterday was the first day of the Hebrew feast of the Passover.

A roll of drawings, picked up in the street, awaits ownership at this office.

An advertisement in THE ASTORIAN is seen by everyone on the lower Columbia.

Special Easter services at St. Mary's Roman Catholic church this morning.

The Oregon arrived in yesterday afternoon from San Francisco; the State sailed.

The British bark Selkirkshire cleared for London yesterday, with 18,332 bbls. flour, worth \$64,162.

H. B. Parker has six men cutting 1,000 cords of fir at his place on John Day's. They get \$1 a cord for the work.

The Mistletoe Social Club will have the first of their second series of social dances at Pythian Castle, next Thursday evening.

Considerable kitting still goes on; work has begun in several of the canneries, but the season cannot yet be said to have fairly begun.

Sergeant Griffin had the storm signal flying over the weather office yesterday afternoon, and later on the prediction was made a reality.

Easter eggs were in profusion yesterday afternoon and the gaily-bundled reminders of to-day gave vivid evidence of the "Feast of the Rising Sun."

J. F. Warren and M. P. Callender have bought the Burge tract of fine timber land on Knappa slough, comprising 560 acres, paying \$1,400 therefor.

The nineteen months old daughter of Henry Peterson, of Uniontown, died yesterday. The infant would take place on the hill at two o'clock this afternoon.

E. B. Plympton, of Westport, shows what Olusop county fruit can do, by clearing up \$200 net on 200 boxes of fine apples sold on commission in this city by E. C. Holden.

Michael Andersen, aged 23, died at the hospital yesterday morning, of typhoid fever. His brother will take the remains to-morrow to Hubbard, Clackamas county, for interment.

The dismal record of shipments in waters adjacent to the Sound was bad enough in '96, but it starts in worse for '97. In this regard the record of the Columbia furnishes conclusive evidence as to the superior safety of the latter.

That we are a musical people is well illustrated by the large number of musical instruments of all kinds constantly arriving by every steamer. From pianos and organs, to accordions, the supply is a constant one and betoken an equally constant demand.

And now they call a tussle with a tough steak "a bull fight." By the way there are no tough steaks at Jeff's restaurant. He buys the best of everything and any one who eats at his place goes again and again. He has a deservedly large patronage and is ready at any hour of the day or night to set out a fine meal. How can a man furnish such a meal as he does, and such a variety for twenty-five cents, is a surprise to many who have often paid six bits for a poorer meal in other towns. Read his bill of fare in another column.

The programme for to-morrow is that all members of the fire department meet at their engine houses in full uniform at half-past one, p. m. There will be a parade, headed by the Western Amateur band, at 2 o'clock. In the evening there will be a grand ball at Ross' opera house. The ladies of the Woman's Relief Corps will serve supper at Liberty Hall. The proceeds are for the tournament fund, and it is unnecessary to say that a liberal attendance and purchase of tickets, etc., will give most substantial aid to the department in presenting itself in due and proper shape at the coming tournament at Vancouver.

A well written advertisement in a live newspaper does more to make business lively than the best possible salesman, for it is always wide awake and never gets weary. Your advertisement goes after business early and late, in season and out of season, and accosts the merchant in his store, the farmer in his home, the lawyer in his office, the lady at her tea-table, and can be at a thousand places at once. It can speak to a million people every day, and say what you have to say, to every one of them, in the shortest way and in the best manner. That advertising builds up trade and dwarfs competition who can question, when the keenest and most successful business men of the country are those who take greatest stock in it.

If you wish anything in fine Stationery, the latest music, novels, etc., go to Griffin & Reed's.

BEECHER'S BIOGRAPHY.  
NEW YORK, April 9.—A letter to the Tribune from C. L. Webster, says that the late Henry Ward Beecher contemplated writing his autobiography, and with that intention had collected many papers and notes and made various memoranda to be used in writing the work. These letters and papers will be used as a basis for a biography by his son William, his son-in-law Seville, and wife. Mrs. Beecher and the family are largely interested in the work.

A CALL FROM GLADSTONE.  
LONDON, April 9.—The anti-coercion meeting, to be held in Hyde Park next Monday, promises to be the biggest out door political meeting ever held in London. Gladstone has issued to the miners in the north of Great Britain the following letter which amounts to a manifesto: "I cannot refrain from calling your attention to the meeting to be held in Hyde Park on Monday, to which, I understand, tens of thousands of the workmen of London, intend to generously devote a holiday. If ever there was a time when it was to the interest of the English workman to be thinking of himself, this is the time. In 1876 a meeting of the London workmen first gave effect to the force to the movement in Bulgaria which was brought about in 1880. May the meeting next Monday ring the death knell of the most insulting, and senseless coercion bill ever submitted to the English parliament."

SHERMAN'S SEEDS SPROUTING.  
WASHINGTON, April 9.—John Sherman is still in the city. He will be here the best part of the summer. Sherman stated that he had learned that Dr. Parker, of London, had accepted an invitation to deliver an oration on Beecher, and moved that the clerk of the church send a cable dispatch at his convenience, on behalf of the church, offering him hospitality and sincere welcome. The motion was unanimously adopted.

THINKING THEM OUT.  
BENSON, April 9.—The Mexican thieves who have been raiding the border, came to grief a few days since. Officers from the San Pedro custom house captured two and started for Arispe with the prisoners. Four miles out from the custom house they shot them. After some time and expense the other two were also captured.

BIG RAIL PURCHASE.  
SAN FRANCISCO, April 9.—Six inches of snow have fallen this season.

News was received yesterday that a contract had been made with a large English firm to supply 15,000 tons of steel rails to the Atchison, Topeka and Santa Fe railroad company. The news was confirmed on inquiry among prominent railroad men, and there seemed to be no reason to doubt the authenticity of the report. The cost of the rails is set down at \$1,000,000. They are engaged to be delivered in this city by twelve ships specially chartered for the purpose, and transported to Mojave, the present terminus of the line, a distance of about 400 miles.

Capt. John Erickson is visiting his family at this place.

The dance given Saturday night proved a grand success, being largely attended.

A party of young ladies and gentlemen while out boat sailing last Sunday were gliding along very smoothly when suddenly the boat was brought to a standstill, soon discovering that they were on the mud flat; but with the aid of oars and the gentle zephyrs they were soon homeward bound.

Mr. Arthur Walker and Miss Tenney Oar were married on the 28th ult., at the residence of the bride's parents on Schofield, by the Rev. W. Richardson.

There will be a grand entertainment next Saturday, given by several of the young ladies and gentlemen of Gardiner. Fine singing and music. Admittance free; 50 cents to get out. All should attend.

School Meeting—District No. 9.

The legal voters of school district No. 9, met in the school house last Thursday.

Fred Wright was chairman. He stated the object of the meeting to be to discuss the matter of additions to the school house. M. H. Parker submitted for inspection a handsome design for a new school building capable of accommodating from 250 to 300 school children, and to cost in the neighborhood of \$2,000. After considerable general discussion as to the proper course for the district to pursue in the direction of enlarging the present school building, the following resolution was offered by W. B. Adair, and carried unanimously: Resolved, That the board of directors be instructed to prepare plans and specifications for a proper addition to the present school house and to report at a special meeting of the legal voters of District No. 9, to be held on the first Monday after the close of the present term, June 13th.

A special tax be levied at such meeting to defray the cost of said improvement.

On motion the meeting adjourned.

## Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.

Trial bottles of this Great Discovery for Consumption free at W. E. Dement & Co.

## The Face.

The care of the complexion has become an accomplishment that no lady of refined tastes can afford to ignore, and in leading society circles it claims as much thought as do the fashions. It is an acknowledged fact that the variations of our climate are very severe on the complexion, noticeable by a roughness and dryness of the skin, and to counteract this effect it becomes necessary to call in the aid of art. In the selection of this agent too much care cannot be exercised. It is well known to the chemist that many of the so-called "blooms," "balms," "creams," etc., contain lead and other poisonous substances, the long-continued use of which is dangerous. Wisdom's Robotine is guaranteed under a forfeiture of \$1,000, to be absolutely free from poisonous substances. If you have not yet tried it, do so at once, and be one of the hundreds who pronounce it the most delightful toilet article ever produced. Wisdom's Robotine is sold at fifty cents per bottle. Sold by W. E. Dement & Co.

## Astonishing Success.

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

Pine on the Mesa: Mill on the Make.

The crusade Commissioner Sparks has made on timber thieves has frightened most of them into hiding. One concern in Colorado, however, seems to be undeterred. The columns of a little newspaper up in the Sneffels range contain the advertisement of three enterprising lumbermen, and it is something unique. It runs like this:

WE ARE NO RABBITERS.—This is to certify that we are at the old stand, and no son of a gun of a special agent is going to swoop around our ranch. We buy the Winchester for cash, and sell all kinds of lumber on time. Our mill is still running, up in the La Sals, and our prices are neither higher nor lower than they were before William Andrew Jackson Sparks and his henchmen undertook to reform everything from hell to breakfast. Come and see us. Our pine is on the Mesa, and our mill is on the make.

## The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at W. E. Dement & Co.'s Drug Store.

And the people like it better than the chance enterprise, where one out of hundreds gets the prize, for they all get it in the price of the goods.
